# THE MAY MARKET

May signals the start of a more active season across the Okanagan, as the region transitions from early spring into the lead-up to summer. Local routines shift outdoors, with steady increases in tourism, seasonal business operations, and community programming. Vineyards, patios, and recreational areas begin to see higher foot traffic as both residents and visitors take advantage of the consistently mild conditions. Residential real estate sales in May saw a slight decrease compared to the same time last year despite available inventory showing upward momentum.

“Market activity remains slightly subdued compared to historical norms, yet steady,” says the Association of Interior REALTORS® President Kadin Rainville, adding “economic uncertainty continues to be a key factor influencing market activity – either driving momentum or dampening engagement, depending on local conditions.”

## RESIDENTIAL HOME SALES

A total of 1,482 residential unit sales were recorded across the Association region in May, coming in above April's 1,317 units but down 4.0% compared to units sold in May last year.

## INVENTORY

New residential listings saw a modest decrease of 2.7% compared to April 2025, with 3,581 new listings recorded last month. The total number of active listings saw a 5.1% increase in total inventory compared to May 2024, with 10,177 active listings recorded across the Association region.

The highest percentage increase in active listings across the Association region for a consecutive month was in Central Okanagan, with a total increase of 9.2% compared to the same month last year.

## HOME SALES BY PROPERTY TYPE

In the Okanagan, the benchmark price for single-family homes saw increases last month in the Central, North, and South regions in year-over-year comparisons, with the highest increase of 1.4% seen in the Central Okanagan, coming in at \$1,030,400.

In the townhome housing category, benchmark prices increased in Central and South Okanagan by 2.9% and 3.9%, reaching \$745,200 and \$535,600 respectively. In the North Okanagan, the benchmark price for townhomes decreased by 4.2% to \$567,000. The benchmark pricing for condominiums recorded the South Okanagan as the only region to see a decrease of 4.9%, while the Central, and North Okanagan saw increases of 0.8%, and 0.2% respectively to \$511,800 and \$325,800.
